## UNFCCC - COP20

### WE BELIEVE THAT GOOD ENVIRONMENTAL AND SOCIETAL STEWARDSHIP WILL RESULT IN A DIGNIFIED FAIR WORLD WHERE POVERTY AND DEGRADATION OF THE EARTH WILL CEASE TO EXIST

Under this premise FCP and FCF strive to empower local communities through capacity building programs and energy efficiency and REDD+ projects. In order to create real impact we support civil society organizations locally and through our carbon fund management by FCF, we create awareness among the private sector on climate change and encourage them to be climate leaders by reducing and offsetting their CO2 emissions with fair traded offsets.

### OUR PARTICIPATION IN COP20

Our agenda for COP20 is to promote the fairness in addressing Climate Change and we ask others to join us. Our main focus is on how we can empower the people most affected by climate change and give them access to climate finance that is fair and equitable, and will improve their livelihoods. Together with local partners we offer solutions on climate neutral value chains, low carbon farming, avoided deforestation (REDD+), energy efficiency in cooking such as clean cookstoves and biogas, and protecting the rights of indigenous and forest communities. To achieve this we work with the private sector, institutional funding, civil society and the communities and smallholders themselves. We take into account a landscape approach on interventions, local ownership and sharing benefits.

### SIDE EVENT THAT WE ORGANIZE

**Wednesday**  
**Dec - 3**

#### FAIRTRADE CARBON NEUTRAL COFFEE; HOW SMALLHOLDERS AND COMMUNITIES BENEFIT FROM FAIR CARBON FINANCE

How carbon markets work for communities, through value chains, by including the private sector. A panel discusses the Fairtrade scheme and how Ethiopian coffee farmers and coffee consumers are linked. How will communities benefit? Can this approach work for other chains or scopes like REDD+?

**SPEAKERS:** ICCO-international, Fairtrade International, FairClimateFund, HoAREC, Gold Standard.

**TIME:** 16.45-18.15 (**Room:** Maranga)

### SIDE EVENTS WHERE WE ARE PANELIST

**Tuesday**  
**Dec - 2**

#### PROGRESS AND SUPPORT IN AMAZONIAN INDIGENOUS REDD+ IN 5'194, 500 HECTARES

Progress and supporting the strategy of Redd + Amazonian Indigenous (RIA) and his seven pilot projects in five countries 5'194, 500 hectares (2,376'483, 7505 TM CO2) as a practice and sustainable implementation of the search "Redd + benefits beyond carbon and financing beyond the market

**SPEAKERS:** CMARI, Inirida (Colombia), Territorio Igarapé Lourdes (Brasil), Federación Shuar (Ecuador), Territorio Itonama (Bolivia), ICCO, Pro Indígena GIZ, Helvetas Intercooperation, Indigenous leaders and delegates from donor countries, amazonian governments and environmental organizations

**TIME:** 13.14-14.45 (**Room:** Caral)

**Wednesday**  
**Dec - 3**

#### LANDSCAPES, ECOSYSTEM SERVICES, AND SMALLHOLDERS: PUTTING CROSS-CUTTING CONCEPTS INTO PRACTICE

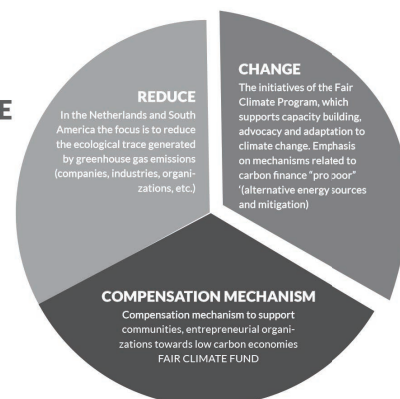

A sustainable landscape is the sum of good practice in ecosystem management and smallholder livelihoods, supported through fair and holistic payments for goods and services it provides. FSC, Fairtrade, Gold Standard work towards this vision with support of HIVOS, FairClimateFund and others.

**SPEAKERS:** Speakers from Fairtrade International, Gold Standard Foundation, Forest Stewardship Council, HIVOS, FairClimateFund, and Nexus

**TIME:** 11.30-13.00 (**Room:** Maranga)

## FAIR CLIMATE STRATEGY

# FAIRCLIMATE PROGRAM AND FUND ACTIVITIES WORLDWIDE

## FAIRCLIMATE FUND

- Pre-finance of community carbon projects
- Advise on carbon reductions and offsetting
- Sales of fairtraded carbon credits

## SOUTH AMERICA

- Landscape approach on forests, climate and communities from a rights approach.
- REDD+ and forest and Climate projects in (4) Brazil FAS; FUNBIO ICMBio, CEES; CPI, COICA RIA / TI Ingarape Lourdes. (2) Peru Helvetas, COICA and (2) Colombia FPN and COICA.
- Linking with private sector in Brazil for CO2 reductions, and carbon neutral value chains.
- Strengthening civil society on socio environmental rights in the Amazon.
- Water, rights and climate interventions in the Andes (La Red Andina de Agua) and Bolivia
- Supporting Mitigation and Adaptation non-market mechanisms in Bolivia

## CENTRAL AMERICA

- Strengthening the capacity of organizations to promote and implement community based forest management
- Supporting the Mesoamerican Alliance of People and Forests, AMPB, ACOFOB, and the Global Alliance for Forests and Communities

## WEST AFRICA

- Improving livelihoods in the shea nut value chain
- Climate neutral shea nut value chain
- Prototype efficient stove adapted to the shea nut as fuel
- Focus countries: Mali, Ghana, and Burkina Faso

## CENTRAL AND EAST AFRICA

### In Ethiopia:

- Fairtrade Carbon Partnership producing carbon credits for CO2 offsetting
- Improving livelihoods within the coffee value chain
- REDD+ and Climate Smart Agriculture
- Fairtrade Label pilot project

### In Uganda:

- Access to energy efficient stoves and biogas
- Education improving food preparation and nutrition

## SOUTHERN AFRICA

### In Madagascar:

- Access to energy efficient cooking stoves
- Green charcoal production from bamboo
- Strengthening the coffee value chain
- REDD+ (in design phase)

### In South Africa:

- Improved cooking method 'Basa Magogo' project produces carbon credits for CO2 offsetting

## SOUTH AND CENTRAL ASIA

- Climate neutral tea value chains
- Low Carbon Farming
- Operational household biogas project producing carbon credits for CO2 offsetting (Fairtrade Label pilot project)
- Operational improved cooking stove project producing carbon credits for CO2 offsetting
- REDD+ (in design phase)
- Focus countries: India and Bangladesh

## SOUTH EAST ASIA

- Sustainable land use management and performance based incentives for forest conservation
- Partnering with 12 organization to set up 6 REDD+ projects under Plan Vivo certification

## WHO CAN YOU MEET IN LIMA

**Abiy Ashenafi (East Africa)**  
abiya@hoarec.org

**Salvadora Morales (Central America)**  
Salvadora.Morales@icco-cooperation.org

**Yanni Vilchez (Central America)**  
Yanni.Vilchez@icco-cooperation.org

**Samuel Sangüeza (South America)**  
Samuel.Sanguenza@icco-cooperation.org

**Gorge Farfan (South America)**  
Gorge.Farfan@icco-cooperation.org

**Nadine Planzer (The Netherlands)**  
planzer@fairclimatefund.nl

**Maarten Derksen (The Netherlands)**  
derksen@fairclimatefund.nl
